

## WELDING CURTAIN WITH FRAME

The Kasweld Welding Curtain with Frame is a high-quality safety solution designed to protect workers and surrounding areas from welding sparks, spatter, and harmful UV radiation. Made from flame-resistant PVC material, this curtain acts as a reliable barrier while maintaining visibility and airflow. The strong and durable metal frame provides excellent stability, making it ideal for industrial workshops, construction sites, and welding training centers.

The robust metal frame ensures stability, making it suitable for industrial workshops, manufacturing plants, and training centers. Its lightweight yet sturdy design allows for easy setup and repositioning, providing flexibility for various welding operations. Whether used as a permanent fixture or a portable barrier, the Kasweld Welding Curtain with Frame enhances workplace safety while maintaining visibility and airflow.

### Product Specification:

Item Name :	Welding Curtain
Brand :	Kasweld
WU SKU :	SPFC86PF2CKR4
Material : Frame - Curtain :	CR Pipe (Powder Coated) PVC - Curtain
Curtain Colour :	RED
Castor Size :	W/Brake:2 - W/o Brake:2
NORM: Flame Retardant	EN 25980:2015
NORM: UV Protection	EN 25980:2015
Frame Outer Size width :	96 inch
Frame Outer Size Height :	72 inch
Frame Inner Size width :	94 inch
Frame Inner Size Height :	70 inch
PVC Cutting Size :	97 inch-width / 72 inch-height
PVC Curtain Size :	93½"-width / 69½" inch-height
Curtain Thickness :	0.4mm / 0.016 inch
Total Eyelets :	28
Total Nylon Tie :	32
Visibillity :	Medium

## Uses:

**Welding & Fabrication Shops:** Shields workers from arc flashes, sparks, and welding spatter.

**Industrial & Manufacturing Units:** Creates a safer environment by reducing exposure to hazardous light and heat.

**Construction Sites:** Serves as a protective partition for on-site welding operations.

**Training Centers & Educational Institutions:** Ensures safety during welding practice sessions.

## Key Features:

**Flame-Resistant Material:** Made from high-quality PVC, resistant to sparks and heat.

**UV & IR Protection:** Shields workers from harmful ultraviolet and infrared rays.

**Sturdy Metal Frame:** Provides strong support for stability and durability.

**Transparent & Semi-Transparent Options:** Offers visibility while ensuring safety.

**Easy Assembly & Portability:** Lightweight yet robust design for quick setup and repositioning.

**Available in Multiple Sizes:** Customizable options to fit various workspace requirements.

The Kasweld Welding Curtain with Frame is a must-have safety barrier for any welding environment, ensuring compliance with workplace safety regulations while enhancing operational efficiency.

The Kasweld Welding Curtain with Frame is designed to provide protection against welding sparks, spatter, and harmful UV/IR radiation. However, it is not a substitute for personal protective equipment (PPE) such as welding helmets, gloves, and fire-resistant clothing. Users must follow all safety guidelines and workplace regulations while operating welding equipment.
